I enjoyed it.By Saphyre RoseI am an advanced stamper and while this book is great for those just starting out in the stamping world, you should get an earlier book of Francoise Read called, "The Rubber Stamping Bible"However, I think a good addition to this book, especially for beginners or those who are not accustomed to doing mathematical conversions would be a measurement converter page because this book's measurement are all in Metric..0 of 0 people found the following review helpful. Great ideas, good for novice stampersBy Ann MIIn addition to a 100 sample cards, it explains the differences in types of inks, types of stamps and explains techniques which is helpful to the novice stamper. I got it for a great price so it was definitely worth the money.

An invaluable resource of 100 incredible ways for rubber stampers to create great cards and keepsake gifts for every occasion.
