This is a amazing book. I received it quickly and packaged very well. I understand so much more about certain artists and their material choices. This book defined for me where I want to be with my choice and direction I want to concentrate on. Purchase this book I would recommend it highly. What a confidence builder!0 of 0 people found the following review helpful. ... are gorgeous and a irepresentative of some of the best artist in the industryBy livelovelaughThe pictures are gorgeous and a irepresentative of some of the best artist in the industry. they are inspiring and you can see how various techniques have been put to use. However, it's important to note this is a picture book, something to look at and page through, not technical insights.0 of 0 people found the following review helpful. Not what I was hoping forBy Picky VirgoBased on what I saw when I "Looked Inside!" I expected more photographs of finished jewelry. While the beads themselves are absolutely stunning, I've got a fairly large focal collection of my own, including several by the artists featured in this book, and was interested in getting ideas about ways to showcase them. All in all, a beautiful book but just not for me.

Celebrate the innovation and creative inspiration of contemporary beadmakers from around the world! This gorgeous

volume in the popular Showcase series presents 1,000 unique beads, all handcrafted from a dazzling array of materials including glass, polymer clay, ceramics, metal, paper, fiber, plastic, wood, and stone. Each one is a magnificent piece of art, whether on its own or in a piece of jewelry or other ornamentation.

Lark Books has done it again with the most exciting display of beads created by artists from around the world. If you are a bead maker, bead collector, or a beader you will want this book. *Beadwright*
