Inspirational By rose thyme This book is right on top of the pile of books that I have recently purchased to learn to make wire jewelry. I love earrings, and there are several that I want to make from this book, and some where I will do my own design twists. I have read the instructions in the beginning and think that there is much to learn from this book. How to make findings, etc. Now I can't wait to assemble the materials and get started! 0 of 0 people found the following review helpful.
