150 Years of Train Models by Hal Carstens 400 photos Hard Cover Copyright 1999 152 pages This book started out to be a simple, selected compilation of my Dispatcher's Report column from the pages of RAILROAD MODEL CRAFTSMAN. As the material was gathered it developed into a history of the model railroad hobby from its earliest years until the late 1970s. Photographs came from my personal files as well as from the RAILROAD MODEL CRAFTSMAN library and a number of other sources.
