disappointed once I did. A book like this really needs to have pictures of each project so you can see what you are making. This lacked that big time. Some of the instructions are really difficult to understand, let alone follow. It has a ton of content, but doesn't make me feel inspired to do any of it. It looks like a lot of effort was put into this, but some outside direction probably would have helped. I will be sticking to Pinterest. 1 of 1 people found the following review helpful. HummBy Kindle CustomerHow do you have a craft book without pictures? Like most crafter's, I'm visual. If there is no picture, I don't know if I want to do it. 0 of 0 people found the following review helpful. Five StarsBy JessIt has a lot of cool stuff to do with my granddaughter. Can't wait for her to come visit.
