0 of 0 people found the following review helpful. wife loves it... she is already about ...By Brad Snyderwife loves it... she is already about 8" into her most recent project... have not heard any swear words that would be related to the book5 of 6 people found the following review helpful. So Many Ideas!By E. V. YatesFlipping through this book and seeing all the different blankets and throws with the yarns that were suggested for them sent my mind into a frenzy of ideas for future projects that I wish I could start right now. Twenty patterns might not seem like a large amount but

when you think of all the different yarns you could substitute for the ones suggested or see a stitch pattern you'd like to use in a different type of project, twenty patterns is more than enough to send your mind into creation overdrive. I can't wait to get some of the yarn mentioned in this book and make beautiful blankets for my family to use. Love this book!
