**Dan Romanchik KB6NU : 21 Things to Do After You Get Your Amateur Radio License** before purchasing it in order to gage whether or not it would be worth my time, and all praised 21 Things to Do After You Get Your Amateur Radio License:

6 of 6 people found the following review helpful. Excellent resource for newer and older hams alikeBy CustomerThis book contains many useful links to connect new hams to the amateur radio community. These embedded links make for a more pleasurable reading and learning experience. However, I bought this book as an experienced ham because I mentor others to become licensed and encouraged them to keep learning. This book certainly highlights the excitement

of amateur radio. 73, N0VYX (John)0 of 0 people found the following review helpful. Four StarsBy Danny S.I enjoyed the book and it did provided useful information0 of 0 people found the following review helpful. Four StarsBy WilliamGreat read and reference imho.

Congratulations! You passed the test and have an amateur radio license. Now what? 21 Things to Do After You Get Your Amateur Radio License, tells you what. The 21 different activities will not only suggest things you can do with your ham license, but more importantly, how to have fun with amateur radio. You'll discover: \* How and why to join a club \* What things to think about before you buy a radio \* How to set up a "shack" \* Why you should build a kit or an antenna \* How to learn Morse Code \* How to participate in public-service and emergency communications events Plus much, much, more... The author, Dan Romanchik, KB6NU, has been an amateur radio operator for more than 40 years and has helped many newcomers get their amateur radio licenses. His "No Nonsense" Technician Class and General Class Study Guides have been used by thousands of people, and he regularly teaches ham radio classes in Ann Arbor, MI. His mission is to help all radio amateurs have more fun in the hobby.

About the AuthorDan, KB6NU, been an amateur radio operator for almost as long as he can remember. He loves amateur radio, and even more, loves sharing the hobby with others. The aspects of the hobby that he enjoys most are operating CW on the HF bands, building kits and homebrewing gadgets, and teaching amateur radio classes. He is currently the ARRL Michigan Section Training Manager and the station manager for WA2HOM, the amateur radio station at the Ann Arbor Hands-On Museum.
