It is full of super cute projects with beautiful full page photography. I feel like the price is a little high for a soft cover book and only wish it had a few more projects in it.Especially necklaces which are mainly what I like to wear. Some projects are just dressing up already made jewelry such as a metal cuff bracelet that you just stick lace and jewels on. I am a tough critic in general but all in all I'm happy with this book. If she comes out with another book with more ideas, I will probably buy that too. But hopefully she

keeps posting more ideas on her blog too :) 0 of 0 people found the following review helpful. More inspiration than recreation
By Tracze This is not a bad book to learn with. Some of the projects seem a bit too homemade. Using it more for inspiration than trying to recreate piece's. It would be great for teens and older children to learn from. 0 of 0 people found the following review helpful. Simple, Super Quick, Successful Jewelry Projects
By Bean Great simple projects. I am using the book for quick creative gift making for high students. The timing is true to the description. 30 Minute Jewelry: What Can You Make to Wear in Half an Hour or Less?
