Very Cute!By DGSVery cute small cross stitch book. It offers small projects that you can stitch either as a single project or use all the similar patterns as a large project. As you can see on the cover - you can stitch a small tea pot or stitch them all for a larger project of tea pots!0 of 0 people found the following review helpful. more than I imaginedBy c.s.crowtherI can't wait to start. I was amazed at so many designs just the size I like, doable in a day or two.. I already have two projects mapped out. The themes of the teapots and flowers are just what I have been looking for. only suggestion of change is when two shades of the same color are together on the design it is hard to discern for older eyes. The book was like new, I've seen more wear on books on the store shelf.

A fun-to-peruse and easy-to-use book featuring each month with its own chapter - a design for every day of the year. Owning this book is a cross-stitcher's dream! 160 pages. Softcover.
