Julie Chen : 500 Handmade Books Volume 2 (500 Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised 500 Handmade Books Volume 2 (500 Series):

12 of 12 people found the following review helpful. Beautiful BookBy C. CongroveLovely book...but, I also have the first volume, and I have to say I prefer that one because the books selected are more diverse in style. I'm certainly not sending this book back because it is still an amazing reference book. I just wish there was a little more variety in style, theme, color and content.0 of 0 people found the following review helpful. Okay, this is not a book about techniques but ...By Margaret Elizabeth VickeryOkay, this is not a book about techniques but about how other people go about interpreting the book making techniques into their artistic endeavours. My only regret is that the photos aren't larger but to cover the 500 books it would mean many trips to the gym so you can lift the book. I can look through it time after time and always get some new idea or inspirations from it.0 of 0 people found the following review helpful. My experienceBy Maria Laura RomeroHello! I'm Illustration's student, so I'd like so much books about art, draw, handmade papers and books etc.This is an incredible book: the pictures, information about it, binding, printing quality..... All book is a treasure to be in a library!Is important to my career (Illustration) because I can see some ideas, for example, to my presentation work, kind of paper to be used in a project .and different elements to join in a project.

Everyone who loved the original 500 Handmade Books will eagerly dip into this visually dynamic follow-up. Offering 500 stunning new creations by an international roster of artists, it showcases the unlimited creative possibilities of

books as objects and as sculptural pieces. Along with traditional, richly embellished volumes, boundary-pushing works unfurl, scroll, and flip; feature improbable materials like metal, fabric, wood, and glass; and include lush, handcrafted papers.

Eye-candy and inspiration for all lovers of books and paper! Craft Gossip
