Five StarsBy CustomerI'm completely satisfy thank you0 of 0 people found the following review helpful. companion pieceBy John FeeseysBought this book as I was so pleased with the companion 500 teapots.It too is a paperback with strong binding,similar to the other 500 series of pottery vessel books you will find in my reviews. It is attractively priced.This book is slightly different in scope as it covers USA potters,and predominantly stoneware reduction fire works,although not exclusively.The format of having from 1 to 3 works each of about 250 potters is adhered to.

This is a collection of 500 ceramic pitchers, including almost everything from handbuilt to wheel-thrown, practical to sculptural, round to square.
