A real gem!By Mary ShermanI just got this from the library and liked it so much, I'm going to order my own copy. It is filled with absolutely adorable embroidery designs; mostly Scandinavian and

retro-type designs, but some lovely home designs and sweet children. The first half of the book are very clear photos of the finished embroidery - each page with its own theme, such as Scandinavian Forest Designs, A Visit to the Flea Market, A Tidy Kitchen, etc. There is also some cross stitch patterns. In the middle of the book, there is a section that gives detailed instructions for each stitch. The second half of the book has black and white patterns with the types of stitches to be used for each design, and a color code for both Cosmo and DMC embroidery floss. There are also some sewing projects inside that you can add your embroidery to - a sweet little pouch, scissors case, pillow cases, a tea cozy and a cafe apron. This book is a gem - and a must for anyone doing embroidery, especially those who enjoy Japanese zakka and folk style embroidery.

This fun embroidery book contains hundreds of creative designs you can use to personalize all sorts of things!
