**From Sterling Publishing : 60 More Quick Knits: 20 Hats\*20 Scarves\*20 Mittens in Cascade 220 Sport (60 Quick Knits Collection)** before purchasing it in order to gage whether or not it would be worth my time, and all praised 60 More Quick Knits: 20 Hats\*20 Scarves\*20 Mittens in Cascade 220 Sport (60 Quick Knits Collection):

2 of 2 people found the following review helpful. Nice Variety of Patterns That Will Make Beautiful GiftsBy Spencer's MomI enjoyed this book. I hadn't worked with Cascade 220 Sport before I got the book, but I quickly fell in love with it. The projects are small enough that you can finish most very quickly. So far I've made Drawstring Cowl Hat and it came out very nice. I'm working on the slip stitch mittens and then I also bought the yarn for the Garter Hood with Lace Edging. That will be my next project. As an intermediate knitter I found the directions very easy to follow, and so far the patterns have been easy to memorize so I don't have to constantly look at the book as I'm working.1 of 1 people found the following review helpful. Nice patterns good variety.By sewin'sqLots of great patterns also great variety. But I prefer when the general yarn weight being used in indicated in the pattern, rather than

the specific brand type being used, which in this case is the Cascade brand. It is touted as inexpensive readily available! It is neither! I have found it only at Pacific Fabrics it is very high priced for my taste financial abilities! Much of it has wool content, which I cannot use. But the patterns are great! I still do recommend it. 1 of 1 people found the following review helpful. 60 More Quick Knits Than I Need By Sandi Lee I initially took this book out of the library and after skimming through it thought that I needed to have it. The book itself is fine ... I just didn't really need it. Not the book's fault ... my impulse buying. It's a nice book, but I am so into the knit from the neck down projects (no seaming) that anything with set-in sleeves is too much work, and I've never really gotten into all the intarsia knitting. It's a nice book ... and I'll probably go back and knit something from it if I ever finish the 10,000 projects I already have going.

Following the success of 60 Quick Knits and 60 Quick Baby Knits, 60 More Quick Knits offers a plethora of patterns using the versatile, beautiful, and economical Cascade 220 yarn. Knitters are treated to hats, mittens, and gloves featuring Cascade's brand-new "Sportweight" yarn, a lighter variety with a crisp finish and great stitch definition. Projects include a snowflake scarf, a checkerboard muffler, Fairisle Beret, Herringbone Mitts, and a Zigzag Lace Stole.

From Booklist Twenty scarves, 20 hats, and 20 mittens are on display here. Page one leads off with a lace slouchy hat, and 59 projects later, we finish off with long-sleeve mittens (gauntlets) that feature bobbles and cables. Although the title calls the projects quick, they are not particularly easy. A variety of stitches, including Fair Isle, are used throughout. The directions are delivered concisely, and charts are prevalent. The finished projects offer something for almost everyone on the distaff side, at least, though some of the caps can be adapted for men. Children get some cute caps, especially one that looks like a puppy. One of the best elements of the book is the up-close color photos. Knitters will really get to see what their finished projects will (hopefully) look like. Though all this winter gear is knit in Cascade sport yarn, any yarn of the same weight should do. --Ilene Cooper
