This book contains lots of useful information and historical background in the first sectionBy CustomerThis book contains lots of useful information and historical background in the first section. However, the price guide information, in my opinion, is just a waste of space. Written from an interesting perspective with quotes from folks who "were there". I noticed a number of spelling and grammatical errors. The photos aren't very good, either, but we must keep in mind this book was published a good many years ago.0 of 0 people found the following review helpful.
