In this fascinating guide for paperfolders, origami expert John Montroll provides simple directions and clearly detailed diagrams for creating amazing polyhedral. Step-by-step instructions show how to create 34 different models. Grouped according to level of difficulty, the models range from the simple Triangular Diamond and the Pyramid, to the most complex Icosahedron and the highly challenging Dimpled Snub Cube and the magnificent Stella Octangula.A

challenge to devotees of the ancient Japanese art of paperfolding, these multifaceted marvels will also appeal to students and anyone interested in geometrical configurations.

About the Author Internationally renowned author John Montroll has significantly increased the origami repertoire with his original designs. Best known as the inspiration behind the single-square, no-cuts, no-glue approach, the American origami master presents meticulously developed folding sequences that result in better models with fewer steps.
