Then I realized that this was a Better Homes and Gardens Christmas book and it would be highly unlikely that I would be dissappointed. I was right. It is great. I've already found the perfect picture for my 4 year old nephew's room for next Christmas. And, the perfect sampler for his parents. The book is full of a wide variety of deigns. From country casual to traditional, from children to adult, there is bound to be something for every taste. One thing I have found as I collect the BHG Christmas books, is that they are all good. I may not want to do every project but there is always something that suits me or someone I know. The color and design coordination is excellent. And, I'm reminded by their patterns that what I am creating for myself is a memory and for others, an heirloom. Also, lately, you can't deny that the price is right. What with the cost of patterns, these books are a real bargain (when you can find them.) So gobble this up while you can find it. I hope you'll be as happy as I am.2 of 2 people found the following review helpful. lots of nice patternsBy DVD watcherLots of cute patterns. A couple of the designs I would like to do they suggest using 25, 28 or 32 count. I prefer 14 count so I guess mine will end up being huge LOL Many patterns are for 14 count too. There are patterns with santas, snowmen, a nativity and lots more. There are patterns for stockings, ornaments, wall hangings, pillows and more.2 of 2 people found the following review helpful.
