MD, DO Bruno Chikly : A Miniature Universe: Matter, Motion Mind by B. Chikly, MD, DO - DVD (A Miniature Universe: Matter, Motion Mind - DVD) (A Miniature Universe: Matter, Motion Mind - DVD) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Miniature Universe: Matter, Motion Mind by B. Chikly, MD, DO - DVD (A Miniature Universe: Matter, Motion Mind - DVD) (A Miniature Universe: Matter, Motion Mind - DVD):

3 of 3 people found the following review helpful. One of a KindBy kelhGreat DVD. I purchased it for myself and was pleased to see my children loved it as much as I did. We were able to see the amazing rhythms and movements of colors in all kinds of natural processes. This is a very unique DVD that allows your whole family to dive into the mystery of life.

Go to <https://chiklyinstitute.com> for special price, discounts, CEUs and more. This astonishing DVD shows us life the way it is in full color and real movement. It gives the opportunity to explore "the inner life of life." It reveals with great clarity the workings of living tissue samples in full color and motion. You can see movement of mitochondria, the wobbling of red corpuscles, changes inside the nucleus, the making of genetic material, cell membranes movement.

There's no dye, no dehydration. When you see it you'll have a hard time finding words to describe it." Narrated by Alaya Chikly, LMT, and developed in collaboration with Richardson Technologies and Francis H.Y. Green, MD, Pr. of Pathology in Calgary, Canada. The DVD is divided into six main parts: - The Secret of Life - Plant Kingdom - Animal Kingdom - Human - Pathology - The Microscope. Cell images range from that of a flower, and tadpole heart to mitochondria, neurons, heart, muscle, blood cell, and pathology such as asbestos, malaria, mycoplasma and cancer. This amazing DVD offers "a new exploration of the remarkable process of nature that could shift your perception of life,". It was produced with a revolutionary microscope which presents living cells at 12,000-15,000 times their actual size. This remarkable new view aids by giving a more multi-dimensional understanding of the body inner dynamics. "we get a very real sense of the inner dance that takes place deep within our bodies on a cellular level" For extracts go to: - Cells Movement: Real Time <http://www.youtube.com/watch?v=LIsKXyYFnVw> - Human Fibroblast: Nucleus Activity: <http://www.youtube.com/watch?v=2ZBp8AfZfgY> - Animals: Mitochondria Heart Cell <http://www.youtube.com/watch?v=C2mgIn-2Sck> - Pathology: Malaria <http://www.youtube.com/watch?v=5HffPYLYD1A> Note: ** For international shipping, there may be additional charges for your country's duties and taxes.
