Pete Waterman : A Train is for Life before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Train is for Life:

After spending more than four decades in the entertainment business, Pete Waterman's depth of knowledge and his breadth of experience is unsurpassed. His passion, drive and talent have helped ensure that he, along with his world-famous company, PWL, remains a musical force to be reckoned with. But his other passion is railways and in particular, model railways - his interest started as a youngster train spotting on Leamington Spa station to working on the railways as a fireman before he became one of the world's leading music producers. This is a marvellous book to own and dip into for anyone who has an interest in the railways; particularly all ardent railway modellers; more general readers will also be fascinated by the art and skill of model making in miniature.
