LOL) I finally decided to buy a used copy. WE LOVE THIS BOOK! There are so many different needle type crafts. The book is exactly what the title says. Even for it's age the projects are not outdated. There is something in here for every age and skill level. There is enough variety in each craft to please just about everyone. Which is great with 4 daughters! You would not be disappointed in purchasing this book, especially for the price of a good used one. 1 of 1 people found the following review helpful. Treasury of NeedlecraftsBy Evelyn StahlThis book was everything I expected. The only complaint I have is that I took too long to received it. I purchased this book for a class I was taking and it took over 2+ weeks before I received the book. That is way to long, it should've only taken 7 days. 0 of 0 people found the following review helpful. Lots of crafty things to makeBy Kathy ClarkLots of neat things to make.
