Shane Connolly : A Year in Flowers before purchasing it in order to gage whether or not it would be worth my time, and all praised A Year in Flowers:

5 of 5 people found the following review helpful. Too much styling, not enough natureBy JayThis book is an example of the stylist taking over the project. The flowers are not the feature in most of the pictures...the photo effects are distracting. In some of the pictures you hardly see the flowers. Too bad, I had hoped for a good book as I love English flower arranging as done by Pulbrook and Gould. Sorry I spent the money, will donate the book to the library and let them decide if they want it.4 of 4 people found the following review helpful. A fascinating bookBy June RobbA fascinating book on presenting flowers in their natural, unforced state. I found it inspiring! No more wires and green foam for my arrangements!0 of 1 people found the following review helpful. Fantastic! One of the most beautiful and delightful books ...By Mnica Sarcinelli UbaFantastic! One of the most beautiful and delightful books I've ever seen.

This book pushes back the boundaries of flower arranging, looking at it as art and decoration. The flowers are all photographed against carefully chosen backgrounds which brings out their amazing color and detail. Shane Connolly was responsible for the flowers at the recent royal wedding and lectures regularly in the United States.

About the Author Shane Connolly is the author of three previous titles, *Table Flowers*, *Wedding Flowers* and *The Language of Flowers* (Conran Octopus), which have sold worldwide and into six different languages. He runs a hugely successful flower decorating business and is 'florist to the elite'. Shane also lectures and does regular tours in the USA and Japan.
