From Search Press : A-Z of Embroidery Stitches 2 (A-Z of Needlecraft) before purchasing it in order to gage whether or not it would be worth my time, and all praised A-Z of Embroidery Stitches 2 (A-Z of Needlecraft):

0 of 0 people found the following review helpful. Excellent bookBy BayouArtistAnother awesome embroidery book for my library. Highly recommend to anyone who enjoys embroidery.0 of 0 people found the following review helpful. Five StarsBy Linda QuickJust as expected and no shipping problems.0 of 0 people found the following review helpful. Good buyBy moonmamaHas been a great sourcebook for learning.

Mary Corbet's Needle 'n' Thread 5 Star Book! Combined with the original A-Z of Embroidery Stitches, this book completes a comprehensive dictionary of embroidery stitches and techniques. It offers every embroiderer a perfect way to add variety and interest to every new stitching project. Ultra-clear visuals make it easy to learn new techniques. Historical insights and beautiful embroideries add to the inspiration.

from Mary Corbet's Needle 'n' Thread:Embroidery Stitch Dictionaries are handy books to have on your shelf, if youre a die-hard embroidery fanatic. Even if you only dabble in hand embroidery as an occasional hobby, youll never be sorry you have a stitch dictionary or two at hand they are wonderful reference tools to have on hand, especially when

you want to expand your stitching horizons a bit. Its a terrific stitch dictionary for stitchers wishing to increase their stitching repertoire. As the title suggests, this is the second A-Z book on embroidery stitches. The first one, A-Z of Embroidery Stitches, is excellent, too, but I especially like this second one because it delves into stitch combinations, variations, and so forth that are not as commonly seen as those stitches found in the first book. A-Z of Embroidery Stitches 2 features over 145 embroidery stitches, variations, and combinations, each shown in detail with step-by-step photos of the actual stitch in progress. The book begins with a long index of the stitches included within! Before the stitching instructions begin, in the front of the book youll find some excellent information for the embroiderer. For example, there are several pages devoted to needles used in embroidery, including what types are used for what, and a page of actual sized photos of the various types of needles. How many times have you wondered if youre using the right needle for your work? Or which needle to choose before you start? This is a great resource that helps answer those questions! Theres a good section on using an embroidery hoop, binding a hoop, and keeping your work clean excellent information for beginners and beyond. But the real meat of the book, of course, is in the instructions. The step-by-step photos of the various stitches are what make the book perfect for learning. Besides regular surface embroidery stitches, youll find some ribbon embroidery techniques included throughout the book and in this particular book, youll find lots of interesting composite stitches, filling stitches, and stitch variations. If youre looking for a good stitch dictionary that will allow you to add some variety to your stitches, you cant go wrong with this book.
