**Margaret Roberts : A-Z of Herbs** before purchasing it in order to gage whether or not it would be worth my time, and all praised A-Z of Herbs:

In A-Z of Herbs South Africa's foremost expert on herbs has condensed her vast and wide-ranging knowledge of the subject into a concise and easy-to-use format. This basic guide and quick reference includes both the common herbs like parsley and thyme, and Margaret Roberts' favourite plants like bulbinella and roses. A systematic introduction to the world of herbs, it provides the following information on each plant covered: A photograph of the herb for easy identification; information on how, where, and when to grow the plant; cosmetic uses; culinary uses; medicinal uses; other domestic uses.
