Country Bumpkin Publications : A - Z of Smocking before purchasing it in order to gage whether or not it would be worth my time, and all praised A - Z of Smocking:

3 of 3 people found the following review helpful. the greatestBy SandraI just learned how to smock about 2 years ago and everyone in my smocking group referred to this book as the bible of smocking. I knew I had to get it. This book cannot be compared to any on the market because it shows step by step directions in full color, and covers everything a novice needs to learn. Even the very advanced smockers refer to this book. Although it is out of print and hard to find, came through.0 of 0 people found the following review helpful.
