by-step photographs lead the reader through the process from great beginnings to happy endings. Over 40 designs to follow More than 60 key wool embroidery stitches to master Beautiful floral designs and endearing animal motifs For the keen amateur and the accomplished embroiderer alike A valuable addition to the keen needleworkers library of A-Z guides

Continuing the excellent A-Z series this latest title covers all aspects of the craft of embroidery using soft wool threads. At least fifty stitch techniques are presented followed by a further fifty designs, which can be stitched or adapted as desired using the full-size patterns given. Step-by-step instructions in glorious colour photography make this a useful and inspiring book for all embroiderers. * East Kent Embroiderers Guild * The A-Z Series is being reprinted as classics and form a veritable library of easy-to-use comprehensive guides that have stood the test of time. This one is all about the stitches used in wool embroidery and how you can incorporate them into stitch designs. Instructions are clear with numerous stitches shown in photos plus tips and more. 60 stitches are shown with step-by-step instructions. The book is further enhanced with project designs that you can follow. The designs are mainly of flowers or animals and use a variety of stitches. I like the Crewel Sampler by Jean Harry and the Pansy by Carolyn Pearce. The patterns for all 29 designs are given at the back of the book. * yarnsandfabrics.co.uk *About the AuthorCompiled by the team at Country Bumpkin, Australian publishers of sewing books and magazines.
