The impact of ADHDBy Donna AndersonThis book should be read by everybody who finds him/herself in the position of influencing the quality of life for another. If nothing else, maybe it will encourage law enforcement to "open a door" rather than "closing" one.I wish (the knowledge it provides,) would

encourage Judges to FORCE school districts to provide FULL records of high school achievement and behavior; to see if the intent (as in truancy) is to criminalize disability and evade the COST of individualized instruction. Hold the school districts accountable....and require judges to make them sign a paper that they have provided the COMPLETE file.If everybody does his/her part; many lives could be saved from failure/despair.Read this book several times; see how many people impact the life of each one who suffers ADHD unsupported. Imagine the difference education (of the caregiver)could make. Fight for change.1 of 1 people found the following review helpful. I have not yet read all of it, but can see the correlations.1 of 1 people found the following review helpful.
