Rolf McEwen : Adult Coloring Book Italian Villas before purchasing it in order to gage whether or not it would be worth my time, and all praised Adult Coloring Book Italian Villas:

This book contains images of Italian Villas created long ago. The pictures provide forms to be colored by adults who wish to relax and relieve some stress. Its an opportunity to get into a pleasant place. The lines and designs are delightful and artistic. This is not a typical coloring book with bold outlines and interior white space, but the images include elements of black, white, and gray. Some aspects of each image cannot be colored, but there is plenty of elegant art with which to work.
