By Graehound This is a great book with simple and easy-to-create designs featuring many different two-hole pressed glass beads currently on the market. The instructions are clear, the diagrammes and pictures effective, and the materials lists are well organised. I would highly recommend this collection to beaders both new to two-hole beads and those who are looking for designs they can build upon. Very well done!

A second compilation of favourite designs using two-hole beads, with a variety of two-beads including Silky beads,

Tile beads, Diamondduos, Rounduos and Kheops beads. 30 fabulous jewellery projects in all, with something to suit everyone, using step-by-step instructions and clear diagrams showing you how to make your own beautiful jewellery.
