Few other motifs are used but she does add some simple florals here and there which compliment the piece being worked beautifully. The focus is as stated. Her samplers are composed of alphabets; historical and contemporary. The diverse lettering itself is well worth the investment. And, her examples of bringing contemporary colors to the mix make the book as alive with possibilities for the next umpteen years as it is today. Brenda has the unique gift of presenting opportunities to make her designs your own and she has done it again in this book. 0 of 0 people found the following review helpful. Five Stars By Bonnie Excellent book! Great price!! 0 of 0 people found the following review helpful. Some of the finishing techniques are out dated but the alphabet and sampler charts are great. A chart for The Lord is my shepherd By lyOldRobin Pinkhams review....this is a standout book among cross stitch books. Some of the finishing techniques are out dated but the alphabet and sampler charts are great. A chart for The Lord is my shepherd is a favorite with a medieval T pattern. These patterns are classics with a huge variety of easy to read charts. Also has a full conversion page of dmc floss. Five stars

For centuries, alphabets and initials have provided favourite designs for stitchers of all abilities, they were used

especially for monograms and traditional samplers. This collection presents 40 easy-to-stitch alphabet projects, which make gifts for many different occasions. The designs include commemorative samplers, a Christmas sampler and a Gaelic sampler, plus many decorative ideas for using single initials. The designs are shown in colour photographs and there are also charts. Most of the designs are in counted cross stitch; others feature such techniques as tent stitch, satin stitch and whitework. For beginners there are instructions on all techniques, including stretching and framing. For the more adventurous, there are many suggestions for using the charts and alphabets in original ways to create unique, personal samplers or designs.
