Kooler Design Studio : Alphabets to Embroider (Leisure Arts #4412) before purchasing it in order to gage whether or not it would be worth my time, and all praised Alphabets to Embroider (Leisure Arts #4412):

0 of 0 people found the following review helpful. poorly planned book. By Kay Phillips Very disappointed with this book. Had many different fonts (styles) of letters, but only one set for each. You can't make any slogans or phrases. Can't even spell a name if the name has more than one of the same letter in it. Almost all the style fonts were for very small children. 1 of 1 people found the following review helpful. Very good - just what I needed although the transfer quality ... By Sandra Davies Very good - just what I needed although the transfer quality wasn't too great ie only able to get a good transfer twice. 4 of 4 people found the following review helpful. Embroidery Transfers By Becky I love this book of alphabet transfers! Even though my sewing machine will embroider anything I program, there is just nothing like hand sewn embroidery in my opinion. The only disappointing feature of the book is that it does not offer any numeral transfers. It would be great if the publisher would come out with 'numerals to embroider'. I'd buy several

copies, as it sure beats tracing numbers on transfer paper manually.

Embellish and personalize with colorful embroidery as you add that special "Wow!" factor to your home and wardrobe. Dressed up with flowers, polka-dots, holiday symbols, and other designs, the 20 creative alphabets in this book make getting personal fun and easy. Transfers are ready to iron onto everything from T-shirts and jackets to pillowcases and baby bibs. Apply letters directly to the fabric to create decorative initials, names, words or even short sayings--then you're ready to embroider. Embroidery basics are easy to master with the help of the stitch diagrams and instructions. Check out the project gallery for inspiration and ideas for choosing the perfect stitches for your embroidery.
