Marty Stevens-Heebner : Altered Shoes: A Step-By-Step Guide To Making Your Footwear Fabulous before purchasing it in order to gage whether or not it would be worth my time, and all praised Altered Shoes: A Step-By-Step Guide To Making Your Footwear Fabulous:

3 of 3 people found the following review helpful. funky shoesBy CrystalI ordered this book to assist a young granddaughter in making her designs her own. The designs are from very easy to a little more complicated depending on the look you want. It's very easy to find fairly new shoes in thrift stores, some are even brand new. The price is right and you can experiment to your heart's content. Definitely for people who want something different whether for one wearing or for continued use. The only limit is your imagination.7 of 7 people found the following review helpful. The person I bought this for liked it.By Dr. Lance D. ChambersI purchased this for my son who is desperate to become a

real shoemaker - not repair them but design and actually make them. He said that it was a good book to highlight possible designs and good idea for new designs. That's what it is a design ideas book not a "How To" in any way. 0 of 0 people found the following review helpful. Fun book to read, and may be younger women will enjoy creating some of the shoes in it. By DF Yes, I love the book, but more as something to give me inspiration and things to marvel at than for any practical purpose. However, I am thinking of "fixing" a pair of white sandals that were ruined by a dog's chewing half through one of the straps. And I plan to read the book again from time to time. The shoes are really delightful.

"Shoes that'll knock your socks off!" "Where did you get those shoes?!" A Step-by-Step Guide to Making Your Footwear Fabulous One size does not fit all.
