Claire Rougerie : Amazing Macram: 29 knotted and beaded accessories to make before purchasing it in order to gage whether or not it would be worth my time, and all praised Amazing Macram: 29 knotted and beaded accessories to make:

0 of 0 people found the following review helpful. The book is packed with 29 projects for you to use each of the techniques you will learn.By Susan DMacrame is becoming more popularand this brings everything togetherand bring it up to date.The book is packed with 29 projectsfor you to use each of the techniquesyou will learn.There are lots of beautifuljewelry for you to make.They would be brilliant for yourselfor to make as gifts.From jewelry the book movesonto bags and uses different techniquesand materials.I love the fact that you can make thingseven with the cheapest string.There is even a snood to makewhich is great fun and looks fantastic.If you want to make somethingbeautiful and modern you willbe very impressed with the useof macrame in this book.I received this book to review.However all opinions expressed are my own.No monies were exchanged.0 of 0 people found the following review helpful. I love this bookBy beardogI love this book. Haven't figured out any of the knots yet, but love looking at the book over and over. Look forward to sitting down with some me time to figure it out.

Macram is back with a fresh, new style. Claire Rougerie guides the reader through 9 lessons accompanied by easy step-by-step instructions and diagrams. There are 29 original and colorful designs to make including jewellery, bags,

accessories and various ideas for embellishing your outfits. The designs are both chic and bohemian combining a retro sixties style with a more modern look.

Macrame is becoming more popular and this brings everything together and bring it up to date. The book is packed with 29 projects for you to use each of the techniques you will learn. There are lots of beautiful jewelry for you to make. They would be brilliant for yourself or to make as gifts. From jewelry the book moves onto bags and uses different techniques and materials. I love the fact that you can make things even with the cheapest string. There is even a snood to make which is great fun and looks fantastic. If you want to make something beautiful and modern you will be very impressed with the use of macrame in this book. * Crochet Addict UK * A brilliantly clear guide to Macrame clearly set out with easy project for beginners and the more competent crafters . The patterns for the bags are my favourite I would certainly recommend this book for crafters of all abilities. I'm new to macrame but am able to easily follow the instructions in this book * Sylvia Hughes * A brilliant book for both the beginner or a more experienced macrame crafter. There are hints and tips and the beginning to help make your projects look great, plus a guide to the materials required and a glossary so that you can understand the instructions throughout. The 9 different techniques are clear to understand, and the 29 accessory designs have clear instructions, all including plenty of illustrations and photographs. The designs to create vary from bracelets, necklaces and earrings, to bags, and even a great looking snood! A book that is sure to keep you occupied for many, many hours! * Susie Wilkinson * A great value book but the quality of it is very upmarket! Projects guide you through the different knots of macrame with clear instructions and great pictures for each part of the chosen project. Inspiring and practical for any age to have a go at Macrame and get hooked into a craft that produces practical items for daily use or as presents. * Sandra Hooson * I received 'Amazing Macrame' from yourselves and I have to say I'm impressed. I'm new to macrame but find the book detailed and easy to follow. There are projects for people with varying abilities from newbies, like myself, to accomplished crafters. The illustrations and finished photographs make it easy for you to see how your project will turn out. I would highly recommend this book to anyone looking to embark on a journey into Macrame. * Siobhan Burns * Excellent book! This book contains all the information you need to make all the projects easy to follow. I cannot wait to get started! * Marina * About the Author Claire Rougerie undertook a masters degree in architectural studies before dedicating herself to her designs in wirework and macram. She is well known in France and abroad for her beautiful wirework pieces, which she sells via her Etsy shop, De Beaux Souvenirs. At the moment, she is working on a new collection combining both techniques. This is her first book on macram.
