Inkspirations! : Anime World Colouring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Anime World Colouring Book:

Lose yourself in the magical world of Anime; twenty original adult coloring sheets designed to captivate your creative instincts. From fantastical flowers to serpentine dragons, there's a coloring sheet for you to enjoy. Designed and created by Artists for Creative People, the Inkspirations! coloring books for adults are very different from other coloring books. All of the designs are hand-drawn, scanned and then printed on bright white 240gsm paper so whether you use colored pencils, felt-tip pens (even metallic pens) or watercolor paints there's no need to worry about color bleeding through and spoiling the design below. And because we believe that artwork is meant to be displayed - at Inkspirations! we don't bind our coloring sheets in a book but send them to you securely wrapped and then placed in a strong artists folder so that you can hang them, share them and take them with you anywhere.
