0 of 0 people found the following review helpful. Soapmaking made easy!By Emmie ZeelieThis book is ideal for the beginner. I have always wanted to make soap, but have been put off by all the don't s. It just seemed too involving and way too much effort. Well, I have to tell you that after reading this book I can't wait to start.Anne L. Watson calmly cuts through all the myths and makes you realize that it is not such a daunting task. If you keep safety in mind, it sounds pretty easy! I have started to gather my supplies and plan to start trying my hand at soap making this weekend.I read this book on my kindle, but I have already ordered the printed copy. You will not regret buying this book. Forget everything else that you read on the net. This is probably the only book you will need to teach yourself how to make

soap. Thank you to Netgalley for providing me with a free copy of this book in exchange for an honest review.
