**Mr Richard T. Banks : Architectural Birdhouses: If you can build a box, you can build a great birdhouse** before purchasing it in order to gage whether or not it would be worth my time, and all praised Architectural Birdhouses: If you can build a box, you can build a great birdhouse:

2 of 2 people found the following review helpful. No color inside the bookBy john j.Very disappointed with this book, but my fault for not looking inside. I first saw the colored version at a friend's house and when I found it online, assumed it was the same. Apparently the author had the first edition printed in color but decided to self publish the 2nd edition in B/W only. The cover looks so vibrant with all the bright colors but there's a big let down when you go inside. If you're looking to buy this book, take the time to find the first edition. You'll enjoy it much more.1 of 1 people found the following review helpful. Where are the color photos?By Susan Shropshire, R.N., C.B.NInfo is good but only color in entire book are the covers....0 of 0 people found the following review helpful. This book has helped

give me ideas on creating my ...By MelThis book has helped give me ideas on creating my own original birdhouses, and of the three since constructed, two have already sold.

Architectural Birdhouses: If you can build a box, you can build a great birdhouse using the simple instructions contained in this book. You start with a Basic Box, add a few shapes, alter a few features, embellish a surface or two, then add some of your own creative juices and you have a recipe for success. The key is using handmade and off-the-shelf items in unusual ways, coupled with unique painting techniques. In addition to building birdhouses, you will find useful information about how to attract birds, mounting your birdhouse, security, maintenance and other functional aspects, including a special chapter on outdoor and indoor display. Building birdhouses, the Basic Box way, can be fun for the whole family - a great way to share an experience and an opportunity to teach youngsters how to handle and respect tools. So let's get started!

About the AuthorRichard T. Banks is an award-winning architect and artist with over 30 years experience in architectural design and art. He designs, handcrafts, and sells unique birdhouses on his commercial website, [www.architecturaleditions.com](http://www.architecturaleditions.com). His one-of-a-kind birdhouses are sought after by garden enthusiasts and collectors alike and have been featured in a number of popular publications including "Southern Living", "This Old House", and "Garden Design". Richard resides in Pinehurst, North Carolina with his wife Marilyn.
