I would have given a 5 rating, but the book itself was misprinted. Chapter 5 was repeated in chapter 15. I had to look online for the actual chapter to read. Other than that, it has been fun to fold over the pages. The instructions were very easy and the result was very nice. I would still recommend this product. Just be willing to look online in case chapters are repeated/left out.0 of 0 people found the following review helpful. Book and Craft Project All in One!By Library LadyI received this as a gift and loved it so much I ordered one for a gift. It came quickly and the recipient was pleased. Neither of us has completed the project, so I can't speak to the accuracy of the directions or the results. I think it is a great idea and once I complete this one, I'm sure I will want others.
