CT Publishing : Artful Fiber: A Mixed Pack of Fibers Surfaces for Art Quilts, Mixed-Media Surface Design

before purchasing it in order to gage whether or not it would be worth my time, and all praised Artful Fiber: A Mixed Pack of Fibers Surfaces for Art Quilts, Mixed-Media Surface Design:

0 of 0 people found the following review helpful. Stuff to play withBy Sheila AryIt's never a problem to have samples of new materials on the market to play with, before you decide whether you like them enough to go out and purchase large quantities. I was pleased to get the sample, but the bag they came in doesn't strike me as being very useful.3 of 3 people found the following review helpful. Artful Fiber FunBy Wendy HillThis pack comes with a wide assortment of materials and a companion booklet. But the pack itself is a reusable canvas messenger bag ready to decorate. What a clever idea to make the packaging a functional object (as is) and a blank canvas should we decide to alter it!The fun began when my friend and I matched up each material with its description in the booklet. We felt like Scrooge counting gold coins as we sorted through the wealth of materials in the pack. Next we looked at the finished samples. The short descriptions of the samples offer an inspiring springboard for our own ideas. We learned a lot looking through the pack and we hadn't even started making anything yet!I have friends in our quilting guild who have jumped head first in the mixed media world. For the rest of us, this pack is a great way to get introduced to a large variety of materials without spending a lot of money. I look forward to experimenting and playing around with these materials. Who knows? I might discover a new passion- but no matter what, I know I'm going to have fun!

Your next creative discovery is in the bag! Filled with just the right amounts of interfacings, batting, roving, and more...this is one bag you want to grab! Nowhere else will you find the perfect selection of innovative surfaces and dreamy fibers all in one place. It's a great value, too-all these materials are packaged inside a sturdy cotton canvas messenger bag that just begs to be altered or upcycled in your own signature style. Add something new to any of your fiber art, quilting, mixed media, craft, or sewing projects Includes Lutradur, multex, fast2fuse, Timtex, Shape-Flex, a Ready-to-Go! Blank Canvas Book, plus a whole lot more! Everything you've always wanted to try in one handy

package-even silk roving and bamboo batting Booklet with how-to instructions and a gallery of inspiration is included

This kit is a great way to get to try out fibers and get to play with them and explore. In order to try each item individually would be quite expensive. This is a smorgasboard of goodies to try. If you find you don't really care for an item, it is no big deal because it isn't a huge investment. The included booklet has a picture of each item included and some project ideas to inspire. The only thing I would have added is possibly a removable tag on each sheet of fiber to make identification easier. (Viki Banaszak 7/19/2012)CT Publishing is more than just books. They also have lots of cool and innovative products to use in your fiber art. The Artful Fiber Pack gives you a little bit of everything so that you can play and discover just what you gotta have more of. (Generation Q Magazine, August 2012)Artful Fiber, a Mixed Pack of Fibers Surfaces for Art Quilts, Surface Design, Fiber Arts Mixed Media, offers 15 fibers and surfaces to play with and explore. CT Publishing has put together all of those fibers you've been dying to try, including Timtex, Bamboo batting, Lutradur, silk rods and cocoons, Spunbond fabric, and lots more. And all of this comes in a reusable 9 3/4" x 10 3/4" canvas messenger bag that you can decorate to make your own. (Cloth Paper Scissors, Nov/Dec 2012)What: Silk roving, bamboo batting, various weights of fusible and nonfusible interfacing, and an array of other fibrous goodies are packed in a canvas messenger bag. Why: Experiment with the fibers to embellish the bag, decorate the canvas album, or construct your own creation. (American Patchwork Quilting, June 2013)
