I appreciate how the author lists the materials (when possible) and explains how each is made and gives alternate ideas with many! Love that! I only wish there were MORE! Very good, I had to try the sample on the front with the beads - Wow, love it! 0 of 0 people found the following review helpful. Five Stars By jennifer s. love this guide! :) 0 of 0 people found the following review helpful. Excellent resource By Donna C. Gibbs It is always valuable to find some new inspiration. This is an excellent addition to other resources about ATCs and altered art. Thank you for the excellent transaction.

Ideas for combining paper, metal, beads, and stickers with painting, stamping, and stenciling techniques fill this guide to making 20 artist trading cards. These small cards measure 2 x 3 inches (6 x 9 cm) and, once decorated, are used to provide samples of artists' work. Collecting the cards becomes a fun way to own original art and a practical method for keeping track of fellow artists met at classes, craft fairs, or shows. Beginners will find the small scale of the pieces a good way to experiment, and experienced artists and craft workers will enjoy the challenge of assembling some miniature masterpieces.

"It's small, rectangular and the latest crafting craze to sweep the world. What is it? ATCs of course!" MyShelf.com
