Gen Ventrone : Authentic Antique Stenciling before purchasing it in order to gauge whether or not it would be worth my time, and all praised Authentic Antique Stenciling:

Stenciling as space decoration is more up-to-date today than ever before. This book illustrates 140 historic ornaments spanning the past century. Examples of colorfully decorated spaces provide additional inspiration, with floral and geometric, light and bright motifs. Detailed directions for simple as well as complex designs make the easily learned techniques a pleasure to use. With little expense necessary for tools and materials, this is a reasonably priced hobby that you can discover anew here!

About the Author Gen Ventrone has taught stenciling from her studio in New Jersey and in a six-part television course

where she was known as "The Tin Lady". She is a member of the Historical Society of Early American Decoration, Inc., and she has lectured, written and demonstrated stenciling at Cooperstown Farmer's Museum for several summers.
