**Veronica L. Fowler : Backyard Water Gardens: How to Build, Plant Maintain Ponds, Streams Fountains** before purchasing it in order to gage whether or not it would be worth my time, and all praised Backyard Water Gardens: How to Build, Plant Maintain Ponds, Streams Fountains:

0 of 0 people found the following review helpful. New Backyard Pond-ersBy MWe "inherited" a backyard water garden/pond and had no idea how to care for it. I bought this book for my husband and am so glad I did! The photos are beautiful and the advice has been extremely helpful. We've cleaned the water garden/pond, introduced additives to the water as suggested in the book, added beautiful plants, and recently moved some large goldfish-type fish in too. We've learned so much from this book. I highly recommend it.1 of 1 people found the following review helpful. Five StarsBy NeenahBeautiful and great photos6 of 6 people found the following review helpful. Five StarsBy CatherineGreat book to help you select the right kind of plants for your pond.

Veronica Fowlers comprehensive step-by-step manual shows you not only how to install your water garden, but maintain it entirely on your own.
