The Blues a call for JusticeBy David RossGary W Burnett uniquely combines his love of blues music with his scholarly knowledge of New Testament theology to produce this very accessible analysis of the origins of blues coming as it did out of the horror of slavery and its aftermath, the poverty of the Deep South.Burnett senses the same lament in the contemporary world and sees the Blues as a wake up call to the affluent consumerist culture. These voices call us to pursue justice for the opressed and voiceless.For Burnett this same voice is heard in the Gospel, the good news, that champions the cause of poor, the abused and the oppressed.
