**Jennifer Lynne Matthews-Fairbanks : Bare Essentials: Bras - Second Edition: Construction and Pattern Drafting for Lingerie Design** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bare Essentials: Bras - Second Edition: Construction and Pattern Drafting for Lingerie Design:

0 of 0 people found the following review helpful. Excellent bookBy S. CarrollA great Book on a subject that has very little information available out there. If you do clothing make lingerie or work on corsets this is a great book to have in constructing the bodice cups and fitting a bust on a garment4 of 5 people found the following review helpful. Great book for construction, patterns only up to 40FBy MorrigoonDefinitely a good book in terms of construction method, etc. Contains patterns to make bras UP TO 40F. If you are above that size, you will have to modify the patterns or

follow the "advanced" directions to do a custom draft. It refers to a web address for larger sizes, but that link is no longer active. This is why I docked it a star. But for normal sized people whose patterns are included in the book, it's excellent. There are instructions for a regular bra, a demi bra, nursing bras c.0 of 0 people found the following review helpful. greatBy NickTable top books did a wonderful job of getting book to my wife after lost the first one. She loves the book and can't wait to make herself bras

This is the second edition. Instructions have been clarified in the drafting section and additional drafting and grading directions are provided with the use of computer aided design. The Bare Essentials series is an invaluable resource for anyone entering into the field of lingerie design. This volume summarizes the basics of bra design, from sewing and construction to drafting and pattern grading; introducing these subjects in a manageable capacity. Bare Essentials is organized into three main sections based on the complexities of the information provided. Included in this book are basic patterns for sizes 30A-40F. What you will learn: - Construction methods using elastics and stretch fabrics - Manipulation of basic patterns - Pattern drafting from measurements - Developing grade rules and grading patterns - Drafting and grading on the computer
