**Dorothy Kaestner : Bargello Antics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bargello Antics:

All the color pictures are on a few glossy pages in the center of the book. They refer to graph numbers page numbers. You have to hunt up the graph, refer back to the picture and so on, for each design.I have stitched using a number of Dorothy Kaestner graphs from her books. I do find her graphs a bit difficult. They are all one color, the thread changes are shown by varying the symbol used. In a complex design this can be a bit much, but once you have decoded the graph, they do what they are supposed to.If I could have my way ( as if) I would have these graphs with the lines in different colors, making them much easier to read. Yes, I would pay more for this book that way, gladly.But all in all, if you are interested in Bargello Needlepoint I would sent you to Dorothy Kaestner or Margaret Boyles.As a side note, I bought this book used, it is inscribed "to Dawn" by Dorothy Kaestner. I feel funny owning it, it \*belongs\* to Dawn. Who ever you are Dawn, I would not have sold a book Dorothy Kaestner signed and gave to me.2 of 2 people found the following review helpful. beautiful designsBy S. HixsonI'm a Bargello new-kid with an affectionate eye for the designs of the 60s and 70s. I've wanted to make pillows like this since my Mom did, way back when. I find Ms. Kaestners books to be beautifully illustrated, clear in instruction. Her designs (particularly those similar to the Bargello Antics cover) are the grooviest.0 of 0 people found the following review helpful.
