Elsa S. Williams : Bargello: Florentine Canvas Work before purchasing it in order to gage whether or not it would be worth my time, and all praised Bargello: Florentine Canvas Work:

0 of 0 people found the following review helpful. NOT a pattern book, rather a picture bookBy Jen H.Beautiful patterns with clear photos, but to me this is not a pattern book. There are no gridded charts to work from. I purchased it in large part due to another reviewer saying it was great even for beginners; perhaps they meant it was great for showing beginners what bargello patterns look like, but it's not particularly good if one wants to reproduce those patterns without a lot of tedious counting and probably drawing the charts oneself with graph paper.0 of 0 people found the following review helpful. Best BargelloBy Elizabeth GerenTo me this is the best Bargello book published. The patterns and colors have wonderful values and unique structures. Love it and high recommend even for beginners.0 of 0 people found the following review helpful. but I was delighted to get itBy Margaret W. KellyIt was an older book and the cover fell off, but I was delighted to get it. I love Bargello and used to follow Elsa Williams. The patterns are beautiful but easy.
