About the AuthorAs a young child, Min Sung Ku dreamed of becoming a comic book illustrator. At six years old, he drew a picture of Superman standing behind the American flag. He has since achieved his childhood dream, having illustrated popular licensed comics properties like the Justice League, Batman Beyond, Spider-man, Ben 10, Phineas Ferb, the Replacements, the Proud Family, Krypto the Superdog, and, of course, Superman. Min lives in Southern California with his lovely wife and their beautiful twin daughters, Elisia and Eliana. John Montroll is respected for his work in Origami throughout the world. His published work has significantly increased the global repertoire of original designs in Origami. John is also acknowledged for new techniques and ground-breaking bases. The American Origami master is known for being the inspiration behind the single-square, no cuts, no glue approach in Origami. Each model that John designs has a meticulously developed folding sequence. John's long-standing experience allows him to accomplish a model in lesser number of steps rather than plenty. It is his constant endeavor to give the reader a pleasing folding experience.
