Jodie Davis, Jayne Davis : Be Crafty: Yo-Yo Crafts before purchasing it in order to gage whether or not it would be worth my time, and all praised Be Crafty: Yo-Yo Crafts:

5 of 5 people found the following review helpful. good ideasBy Mary Provenzanothis is a craft that was very popular during the depression. if you want to teach an easy craft to anyone who doesn't want to get bogged down in patterns or complicated instructions this book will help.0 of 0 people found the following review helpful. Yo - yo fun, great craft for beginners.By Gaye HillPurchased as a gift for a 9 year old anxious to learn hand sewing. Great basic instructions with many photos and ideas for projects. My grandmother started me sewing with yo-yos (back in the day), making this book perfect for beginners.4 of 4 people found the following review helpful. Great book!By AngieCute little book

that shows you the basics of yo-yo crafts! It shows projects to do and it also has patterns for different sizes of yo-yo's to copy in the back of the book!

The well-loved craft of making yo-yos cutting circles of fabric to gather and make rosettes is popular for many reasons. Yo yos are a perfect way to be penny-wise as they use up fabric scraps, they do not require any special tools, and they are portable and can be constructed in just a few minutes once the technique is learned. Yo yos are used in a variety of craft projects including quilts, pillow covers, and toys, and they are perfect embellishments for scarves, hats, dresses, and shoes.

About the Author Jodie Davis is best known as the author of 30 quilting books. She also produces and hosts on QNNtv.com the online television station devoted to all things quilting two monthly series Quilt Out Loud and Quilt It! Jayne Davis has been crafting for years, and she and co-author Jodie Davis are the authors of several craft books. As Jodie and Jane discovered, creating alone is fun, but creating together is a blast. Whether scouring antique stores for just the right find, fondling yard goods in a fabric store, or flipping through magazines they have found that two heads are way better than one when it comes to designing-and having a great time while doing so. Together the duo proves that teaming up makes the adventure much more fun.
