There are clear-close-up pictures to show you step by step as you follow instructions.By Rather be at the BeachI LOVE THIS BOOK for the beautiful, creative projects! The first time I flipped through it, I was so excited to see cutting-edge, new ideas and was already planning how to tweak a few of them to suit my tastes better. There are plenty of clear, close-up pictures to show you step-by-step as you follow the instructions. I am thrilled to find this book and highly recommend it! It is worth every penny!!!BEWARE: This book has been reissued with a new cover a red cover with a different red, pink

Great bookBy JanMust have book for beginning beaders. Older but has great basic information.

In *Bead and Wire Jewelry Exposed*, well-known designers Katie Hacker, Fernando DaSilva and Margot Potter offer over 50 high-fashion jewelry pieces made using unique techniques that reveal typically hidden components such as beading wire, cording, findings, tubing and chain as the central focus of the design. While the pieces may look complex, the techniques are simple enough for beginners - yet sophisticated enough for the veteran jewelry crafter. A comprehensive getting started section provides information on the supplies, tools and techniques you'll need to make all of the projects in the book.
