Mary Libby Neiman : Bead Crochet Basics: Beaded Bracelets, Necklaces, Jewelry, and More! before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bead Crochet Basics: Beaded Bracelets, Necklaces, Jewelry, and More!:

That it does. But you can obtain the information online or from less expensive beading magazines. I thought I'd be getting an in depth view of this wonderful craft--like info on how to string beads to create patterns. When I tried to return the book I found that the seller (though the book is from the US) is in Great Britain! They are called "The Book Depository." This is the response I got when I emailed them: "We are an online seller so for us items are not being held on site and the information we have been given doesn't give much more details regarding the contents of this items we sell. I am very

sorry we could not be of more help."They did eventually refund my money.1 of 1 people found the following review helpful. So you want to learn bead crochet . . .By Elaine ReedThis is your chance. I bought this book because I want to improve my skills and this book appears to be a great book to help me get to my goals. Directions are clearly written for beginners.0 of 0 people found the following review helpful. Five StarsBy Joan Flickerexact;y what i wanted
