Kaisa Holsting : Bead It, Iron It, Love It!: Over 300 Great Motifs for Fuse Beads before purchasing it in order to gage whether or not it would be worth my time, and all praised Bead It, Iron It, Love It!: Over 300 Great Motifs for Fuse Beads:

2 of 2 people found the following review helpful. I love it.By k. layIt has a lot of patterns that I am going to be making. And I like the fact that I don't have to go search for the patterns.2 of 2 people found the following review helpful. She love's itBy debora estevesMy daughter love this book and she 10 very easy for her to do2 of 3 people found the following review helpful. It's okay :|By crvI first heard of this book through polymer clay tutor on you tube who used it for making an emoji cane. It interested me enough to buy the kindle version to make canes out of it. It's okay for the use of making canes then reducing them incorporating them in designs in polymer clay . I personally would not use perler beads for fashion jewelry or the like. I think it's too tacky. I also realized that I could just google pixel art get lots of neat designs as well for free to make polymer clay canes.

Pixel art using melty beads is the latest cool craze to hit the crafting community. All you need to get started is a peg board, a bucket of beads, and an ordinary iron! Discover how easy it is to create unique, eye-popping accessories and jewelry out of fuse beads. This creative how-to book shows you how to transform simple beads into charming jewelry and home accessories using simple beading and melting techniques. You'll find: Over 300 motifs, with patterns for the seasons, flowers, celebrations, geometric shapes, under the sea, animals, and more 15 projects, including brooches, necklaces, bracelets, earrings, rings, coasters, bookmarks, Christmas ornaments, and more Step-by-step instructions for all of the essential techniques, from fusing and beadweaving to attaching findings Tips, tricks, and materials needed to get started Blank grids so you can create your own designs So go ahead bead it, iron it, and we bet you'll love it!
