**Heather Powers : Bead-Making Lab: 52 explorations for crafting beads from polymer clay, plastic, paper, stone, wood, fiber, and wire** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bead-Making Lab: 52 explorations for crafting beads from polymer clay, plastic, paper, stone, wood, fiber, and wire:

2 of 2 people found the following review helpful. Wonderful source of ideas!By Marla KellmanSo many beautiful beads and ideas! I bought this book along with other polymer clay jewelry books and although this one has projects that require different mediums, it has become my favorite one.1 of 1 people found the following review helpful. One of my Favorite Bead booksBy rosaLove this book. I highly recommend it if you are interested in making your own beads. There is something for every jewelry artist.1 of 1 people found the following review helpful. Five StarsBy artinspiring!!!!

Fill the year ahead with handcrafted beads that you can make yourself by following tutorials from Bead-Making Lab! Imagine a year in beads. We're talking 52 handmade varieties all handcrafted by you! Bead-Making Lab makes this

bounty of bead making possible with instructions for bead designs that run the gamut from sophisticated to playful. Bead-Making Lab is organized by material, and single-spread lab tutorials for each bead design make the book simple to use. The tutorials are brief, accomplishable, and rewarding. Choose from traditional materials like paper mache and polymer clay, or opt for new materials such as resins and shrink plastic. Once you've selected your medium, follow the lab instructions for the bead-making technique of your choice. Try a new technique each week! With how-tos including molding, carving, painting, gluing, drilling beach glass and pebbles, and creating fiber-art beads with felting and embroidery, you'll have a year of unique projects ahead of you. Bead-Making Lab also offers ideas on how to turn your beads into jewelry and gives you a sneak peek at some contemporary bead artisans' best work. Get busy beading, crafters!

"A useful book for jewelrymakers who are interested in customizing their own beads and would like to try out an array of techniques - Library Journal
