The diagrams are easy to follow, but the pictures of the finished pieces are blurry and the directions are all over the place. You have to turn to different pages to find the directions for a design. for example, on page 25, you are instructed to turn back to page 15 for the tassel and then again on page 25 you are instructed to turn to page 13 and page 19 for thread paths and the flower base. That is a pain.2 of 2 people found the following review helpful. Another wonderful beading book for my library.By CustomerFinally! A book on how to make tassels. I have been waiting for a book on how to make tassels for years and as with her other books, Jamie Cloud Eakin does not disappoint. Her ability to break each step down and explain the

whys and how-to of each featured tassel makes her instructions and diagrams easy to follow. I highly recommend this book if you are looking to give your focal bead added umph. 2 of 2 people found the following review helpful. So Many Possibilities, Such Fun. By My Book The most exciting bead book I have seen lately. I can't wait to try out the techniques. I have some special focal beads that would look great with a tassel on each side. Thanks for such an interesting book!

A beaded tassel is no longer a hassle using the techniques from all-star beadwork author Jamie Cloud Eakin. This book includes instructions for four types of tassels including detailed illustrations, design considerations and, of course, seventeen fabulous projects. Advance your beadwork techniques and creativity and get inspired with this must have addition to any beading library.
